SUMMARY

Data Analyst with nearly one year of professional experience in Excel reporting, dashboard development, data cleaning, and business performance analysis. Proficient in Excel, SQL, Power BI, and Python with hands-on experience creating KPI reports, dashboards, and business insights. Passionate about solving business problems using data and building analytical solutions that support better decision-making.

EXPERIENCE

QTN Global Services Pvt. Ltd.

Jan 2026 – Present

Data Analyst

- Build and maintain Excel reports and dashboards for daily, weekly, and monthly business reporting.
- Create Pivot Tables, charts, KPI summaries, and management reports.
- Clean, validate, and organize business data to improve reporting accuracy.
- Prepare trend analysis reports and performance summaries for business review.
- Use SQL and Power BI for data extraction, visualization, and reporting when required.

QTN Global Services Pvt. Ltd.

Sep 2025 – Dec 2025

Data Analyst Intern

- Collected, cleaned, and maintained business data using Excel and Google Sheets.
- Prepared daily and weekly performance reports.
- Built charts and dashboards to visualize business metrics.
- Assisted in data validation and reporting for internal teams.

PROJECTS

Financial Fraud Detection & Risk Analytics (SQL, Python, Power BI, Excel)

- Analyzed 50,000+ transactions to identify suspicious patterns and fraud indicators.
- Built a risk scoring framework using SQL and Python.
- Developed a three-page Power BI dashboard for fraud monitoring and executive reporting.

E-Commerce Recommendation & Sales Analysis (SQL, Python, Power BI)

- Performed sales, customer, RFM, and market basket analysis on 7,854 transaction records.
- Built recommendation logic using the Apriori algorithm.
- Developed interactive dashboards for sales, customers, and recommendations.

HR Analytics Dashboard (Power BI, Excel)

- Created HR KPIs, attrition analysis, and workforce dashboards.
- Built interactive visualizations with slicers and drill-down analysis.
